“This delightful villa near Sagres enjoys sensational sea views from its rooftop terrace, a thoroughly modern interior design, and easy access to an excellent range of amenities”

It is difficult to imagine a more sensational position anywhere on the Algarve coastline. The undisturbed views of the crystal blue Atlantic, in particular, will take your breath away. These views are enjoyed most of all from the spectacular roof terrace. What better way to start and end the day than here, with a morning coffee or an evening glass of red in hand...

One might say the roof terrace gives this villa its 'wow' factor, particularly with its infinity pool, however in truth the entire villa lives up to that description. Indeed, beneath the terrace there is an upper and main entrance floor with wide open spaces, bright colours, luxurious bedrooms, and cleverly-designed glass doors to maximise those aforementioned views.

In addition to the sea, the roof terrace also overlooks Salema village and beach. This attests to an excellent location in terms of convenience and enjoyment, with grocery stores, cafes, and restaurants practically on your doorstep. Further afield, just a short drive away is the town of Lagos, with an array of historically-significant buildings and a famously vibrant nightlife – something for everyone!
